

# QULMAN

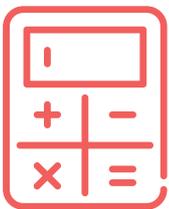

PRECISION THAT COUNTS

## A TOOL DESIGNED FOR **ROOFERS AND DISTRIBUTORS**

- Fast and accurate roof calculations
- Automatic calculation of material requirements and/or labor
- Cost estimate / quote prepared in minutes

### KEY BENEFITS

#### Minimizes Errors

Thanks to precise real-time calculations.

#### Saves Time

A ready-to-use quote in just a few minutes - wherever you are.

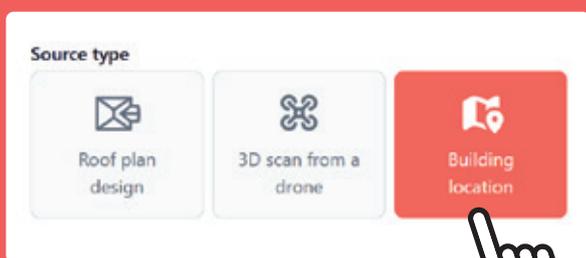

#### Create a Quote “in Just a Few Clicks”

Boosts professionalism - a ready-made offer delivered as a PDF.

## AVAILABILITY & TECHNOLOGY

- Works on both mobile and desktop devices
- Powered by artificial intelligence and proven algorithms, ensuring precise and repeatable results

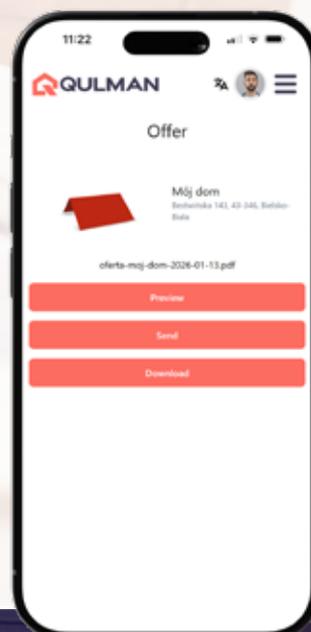

### WHAT IS THE STARTING POINT FOR A ROOF CALCULATION?

The calculations are based on:

- Roof plans / design drawings
- Photogrammetry (drone / camera)
- Building address

### FINAL RESULT FOR THE USER

- 3D roof visualization, summary of parameters, detailed dimensions
- Ability to select quote parameters and download/share a PDF
